EXPERT TALK SERIES

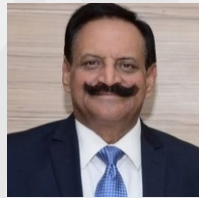

The world of Education is changing tremendously, owing to modern requirements and much-needed changes. Conventional methods of Education need to be changed to adapt to current conditions that are way different from the requirements about a decade or two ago. Attention span and the way of grasping knowledge for students have also been changing for some time now. One of the most effective and evergreen methods of imparting knowledge to the students is Corporate Talks and the experts with the real-time rich experience. Especially in management studies, students need to taste the experiences of the corporate world.

The Chanakya Talk Series is an initiative taken by GIMS to redefine the concept of training and development for the students. It is a platform for interaction between academia, industry and meet with inspirational visionaries, senior industry practitioners to learn from their rich, diverse experiences. Corporate Gurus are invited for the talks, with an aim of improving and targeting the right competencies for the students and the audience.

The Prabodhan Talk Series (PTS) is another initiative at GIMS, which invites the experts from the functional level who share their real-time experiences with these millennial managers. Samreek Talk Series (STS) is yet another talk series which invites the veterans of the battleground - the defence forces. STS endeavours to instil the discipline and rigour of the Indian Defence Forces by inviting the retired defence personnel to impart the Gyan of being sturdy and stable in life to achieve success.
